

I read your requirements. You are seeking Python, Django skilled employees. I am already learning this technology and developed 4 projects on Python, Django and REST API. I am a problem solver using c++ programming language and have solved almost 900 problems in online judges (codeforces, light oj, leetcode). I attach all the id links in my resume you may visit. Therefore, sir, I assume that I am capable of this job.

I am highly interested in this job, so sir I am waiting for your call.
